## ACOUSTIC PERFORMANCE

Building Construction	IIC
Wood Construction	IIC 57
Concrete (6" slab no ceiling)	Δ IIC 26
Concrete (6" slab with ceiling)	IIC 61

Visit [www.soundseal.com](http://www.soundseal.com) for field and lab tests.

Note: Results may vary depending upon building and floor configurations. Test procedure methods per standards set forth by ASTM E492-90, ASTM E-989-89, ASTM E-1007-97 and ASTM E2179-03

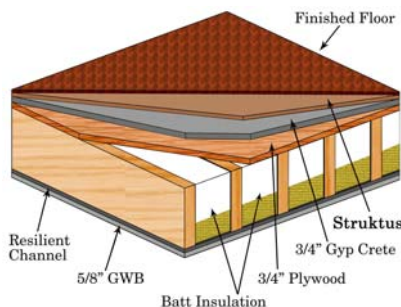

Acoustically Tested with

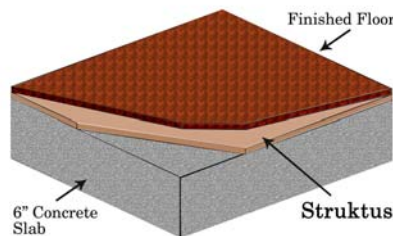

# KONECTO™

## Product Specifications

- 11 mm thick
- 20 1/4" x 35 1/2" sheet size
- 50 sq. ft. per package
- 1600 sq. ft. per pallet
- 32 packages per pallet

Typical Wood Construction

Typical Concrete Slab Construction

## WARRANTY

Impacta Underlayments will remain responsible for the performance / consistent quality as long as they have been installed according to the written instructions supplied by Sound Seal and in situations where the specific Impacta model is meant to be installed. Sound Seal warranties that spillage of casual water onto a finished floor with Struktus installed will have no effect on the performance of the Struktus. Any liability for sub-sequential damages is not accepted. The sound reducing capabilities of Impacta underlayments have been tested under laboratories conditions and therefore may differ in other situations.

## Accessories

- 4 mil poly vapor barrier\*
- \* required for installation
